

General Atlantic Included in Inc.'s "50 Best Private Equity Firms for Entrepreneurs"

General Atlantic was included in Inc. magazine's "50 Best Private Equity Firms for Entrepreneurs." Over the past 39 years, General Atlantic's sole focus has been partnering with entrepreneurs and helping build some of the world's best growth companies.

Firms for the list were chosen based on submissions from entrepreneurs whose U.S.-based companies private equity firms either bought or sold after January 1, 2016. Minority investments qualified. These founders continued to work at the portfolio company for at least one year following the private equity firm's investment. Inc. identified firms that have invested in founder-led companies, gathered data on how their portfolio companies have grown, and asked entrepreneurs to tell Inc. about their experiences.
