

General Atlantic Named to Inc.'s 2022 Founder-Friendly Investors List

October 11, 2022 – Today, Inc. named General Atlantic in its fourth annual Founder-Friendly Investors list, which honors the private equity and venture capital firms with the strongest track records of success in backing entrepreneurs.

This year, the list recognizes 184 firms that entrepreneurs collaborate with and trust as they receive the financial support they need to drive the growth of their companies. All 184 firms on the list have successful track records of remaining actively involved with the businesses in which they've invested. To compile this list, Inc. interviewed entrepreneurs who have sold to private equity and venture capital firms on their experiences and reviewed data from the firms on how their portfolio companies have grown during these partnerships.

Since General Atlantic's founding more than four decades ago, the firm has been committed to partnering with visionary entrepreneurs and providing them with both the capital and operational expertise they need to scale their innovative and transformative growth companies. To date, General Atlantic has backed more than 450 entrepreneurs across the US, EMEA, Latin America, India & Southeast Asia and China.

General Atlantic submitted an application and paid an application fee to be considered for this list.
