

Remembering Chuck Feeney, Founder of General Atlantic

Chuck Feeney, Founder of General Atlantic and Atlantic Philanthropies, reimagined entrepreneurship as a force for good, seeking to fuel innovation that improved the human condition and, in turn, magnify his ability to give back.

General Atlantic founding members, Steve Denning, Chairman Emeritus, and David Hodgson, Vice Chairman, as well as our Chairman and CEO, Bill Ford, speak to the profound impact of Chuck's vision on the core values of our firm and the foundations of our investment platform. We are honored to carry on Chuck's legacy through our dedicated partnerships with management teams and investors and active involvement in our global communities.
